

GOOD LIGHT

светотехническая фабрика

GOOD LIGHT

светотехническая фабрика

Компания была создана в 1988 году. Это был один из первых производственных кооперативов в Москве. Первая люстра была разработана и произведена в 1989 году и с этого момента бытовые светильники с каждым годом стали занимать все большую долю в объеме производимой продукции.

На протяжении 30 лет компания успешно развивалась и заняла достойное место среди отечественных и зарубежных производителей светотехники, представленных на российском рынке.

В настоящее время продукцию компании можно встретить в самых отдаленных уголках России.
